HACLOPRO Low Profile Air Conditioning Sets most applications **\$1519.**

All standard kits are supplied with high mount compressor brackets and made up hose sets. These kits are supplied with a low profile compressor bracket and universal hose kit that is lengths of hose and loose fittings that have to be made up to your application. Note to use on 57s requires moving the stock battery to another location. This is how we do most installations in our shop.

Need Parts for other years?

Many of our regular suppliers have them..We can order them for you, don't be afraid to ask !!
