HACLOPRO Low Profile Air Conditioning Sets most applications \$1519.
 All standard kits are supplied with high mount compressor brackets and made up hose sets. These kits are supplied with a low profile compressor bracket and universal hose kit that is lengths of hose and loose fittings that have to be made up to your application. Note to use on 57s requires moving the stock battery to another location. This is how we do most installations in our shop.

Dakota Digital *Retrotech* Gauge Sets

Original appearance when off. When on, all the latest technology shows up including shared tech from the HDX series, multiple lighting colors etc. 55-6 has small Tach in center gauge across the top. 57 Tach is Numerical Lighted Band under Speedo Numbers around center hub. 57 Alternator & Oil Pressure are Numerical Lighted Bands left and right on bottom of speedometer cluster. Matching Clocks are complete assemblies for this gauge set only.
