'ONE OFF' INTERIORS

Stock patterns, different materials

We can do special interiors based on stock, such as a stock interior with custom colors or say 55 convertible rolls style pattern to fit a sedan, etc. Additional cost based on the particular application. In most cases this will be 30% more than prices for stock items. Other additions such as carpet on door bottoms will add more cost. Exact pricing we will have to quote to your specific requests. We also have various bucket seat patterns available if you know what seats you are using, we can make the covers to match, or if the pattern is not available a pattern can be made at additional cost. These interiors are special made to order for you & must be fully paid in advance. They are NOT returnable.
