STEERING WHEELS

Choosing a Steering Wheel Notes: Original Wheels are 4-3/4 deep bottom of hub to front of wheel, this is the 'Dish'. As specified wheels it includes the wheel and the style sleeve or hub. Note the dish specified. Tilt columns are longer than stock. 57 especially since they are 2" longer than stock and you can make up for this by choosing a flatter wheel.

SIDE WINDOW GLASS Felt CHANNEL Kits

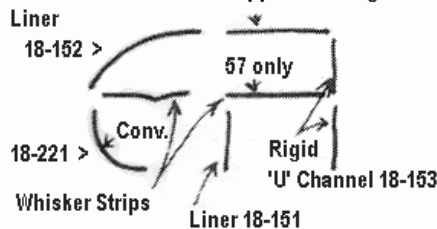

The kits below contain options. Fasteners supplied are replacement. If you wish you can order original hardware that is listed separately. If you want straight lengths that you shape yourself you may order those in most cases, see previous page or call. **Formed** kits have fully formed & correctly trimmed whisker strips & formed U channels as noted.

Unformed kits include only straight strips. All kits include original staples. All kits include replacement fasteners that consist of original type staples, special screws, rivets and instructions that are the simplest to install. No one makes them better than we do.

All Kits include Fasteners & Instructions

All channel felts still made in USA.

Flippers See Page 89

AUDIO SYSTEMS FOR YOUR CLASSIC FITS IN STOCK DASH OPENING

These radios are designed to fit right in your dash, in the original location with NO alteration at all, 100% bolt-in. All radios are guaranteed for 1 year, parts & labor, 2 years on parts only. Specific year instructions furnished. **All models come with original appearing knobs.** You may order these radios with a plain filler bezel on 55-6 models that do not have the original dash trim or if you are using custom dash trim. In addition Billet dash trim now available to fit these radios without using the filler bezel at all [See Group 12 Interior]. Plain Bezel applies to 55-6 only and means no dash trim pattern on filler bezel that surrounds radio face & mates it to the dash. All 57 radios all have a solid chrome filler bezel.
